

Founded in 1969 as SEG in Krefeld, Germany - grown under Woodward for more than 10 years - ConverterTec is a global specialist in electric power conversion. Since 1995, first variable-speed Concycle® generators and power conversion technology is being used in marine applications, Uninterruptible Power Supply as well as in upcoming wind and solar/PV applications.

As of today, we are looking to a legacy of more than 24,500 converter systems in on- and offshore applications, shipped to 47 different countries worldwide, representing more than 45GW of installed power.

With our branches in Kempen, Krakow and Sofia as well as other global service hubs, we support our customers worldwide.

## In Brzegi we are looking for a **Material Planning Leader** Lider Planowania Materiałowego

### Your tasks:

- Manage a team of 4-5 employees, providing mentorship, coordinating workload, steering, and perform feedback
- Monitor and determine individual metrics and drive team to achieve sourcing targets
- Provide weekly team status reporting, escalate to management when necessary and drive continuous improvement actions
- Act as a primary point of escalation and working with suppliers, customers and internal stakeholders to solve material issues (shortages, emergency customer demands, etc.)
- Select suppliers based technical and commercial requirements, negotiate order and payment terms and develop robust supplier management processes
- Perform regular cost/price analysis for suppliers and selected BOM items
- Coordinate with other departments regarding production goals, timelines, supplier payments, engineering approvals etc. to ensure material supply on time and delivery schedule to the customer
- Anticipate and solve material shortages and upcoming delays based on outcome of weekly SIOP meetings
- Determine required material needs, generate according purchase orders and manage inventory issues, schedule changes, postponements, cancellations
- Ensure the consistent and adequate supply of materials necessary for customer and production
- Set up performance related KPIs and standard reports
- Review and optimize proactively ERP planning parameters and order strategies of suppliers and material items (i.e., lead times, lot sizes, order quantities, safety stock)
- Collaborate with IT to test and conduct changes and updates in the ERP system

### Your Profil:

- Minimum of 5 years' experience as a Buyer required
- Manufacturing processes knowledge desired
- Bachelor's degree (or International equivalent) in a relevant field or equivalent experience required
- Optional APICS (Association of Production and Inventory Control Society) or CPSM/CPM (Certified Professional in Supply Management/Certified Purchasing Manager)

### What we offer:

- Work for a key player in the renewable energy industry with continuously growing market opportunities
- Attractive work conditions in a dynamic organization as part of a globally operating group
- Permanent employment contract after probation period
- Private healthcare provided by LuxMed/SALTUS
- Mybenefit platform including Multisport access
- Life insurance
- Modern and convenient new office location with parking space
